MEMORANDUM FOR :

SUBJECT

: Progress Report For Month of March 1957

1. Attached is the Records Center monthly statistical report for the month of March 1957.

2. The following summarizes the activity of the Branches during the month:

a. Accessioning

The Center called upon the Logistics Office/Transportation Division on three different occasions to transfer a total of 1835 cubic feet of records and distribution material. This is equivalent to the volume of more than 229, four drawer, legal size file cabinets which have a replacement value of \$81,066.

Logistics/Reproduction is now sending published reports, which are for Supplemental Distribution, through the regular courier service. This has enabled the Center to receive the publications sooner and to give better service on these reports.

A study of the problem of providing additional storage space has led to the requisitioning of 60 sections of shelving. This shelving will be installed in the aisles and processing areas when required.

b. Reference

The Center furnished 6,631 items to requestors during the month. Of this number 4,823 items were for intelligence reports.

The Janis material held by the Center has been inventoried and relocated. There were 303 cubic feet retained and 840 cubic feet destroyed.

c. Disposal

During the month a total of 922 cubic feet of records and distribution material were placed in the disposal area and 97 cubic feet were transferred to Headquarters.

CONFIDENTIAL

CONFIDENTIAL

Disposal - Continued

The destruction of the 1200 cubic feet of records in the disposal area, aisles, processing area and elevator is still pending. An additional 100 cubic feet of disposable records are occupying shelving because there is no floor space available to store them. Furthermore, reference service has been made extremely difficult due to this situation.

Chief, Records Center Division
